Tarka-Samgraha of Annambhatta

The Nyaya-Vaisesika System of philosophy not only proposed a distinct philosophy of life, but also provided basic tools to analyze, to accept or to reject a proposition in a philosophical debate. The System developed logic and epistemology which were so basic that all major systems of Indian intellectual heritage adopted them for application. The method of arriving at Truth by analyzing verbalized cognitions is indeed a distinct contribution of this System.

The text, Tarka-Samgraha of Annambhatta, is a beautiful introduction to Nyaya-Vaisesika System of Indian philosophy. It introduces the reader the age-old Indian logic and epistemology in a very simple but profound language. That is why, this text is taught compulsorily in all systems of Indian thought, be it philosophy or literature or grammar or Dharmasastra or hermeneutics. It provides classical training in cognitive analysis through the technique of Navya Nyaya Language. It is absolutely helpful in reading and understanding any System of Indian philosophy.

We cordially invite you to the Study Camp on Tarka-Samgraha. The lectures will be in

English. Although advantageous, the knowledge of Sanskrit will not be a prerequisite for the participants.

This residential camp will also provide a platform to discuss, review and develop capabilities and skills of dialoguing, reasoning and analysis.

It will help researchers to engage in discussions with eminent scholars.

This Camp aims to bring together Academicians, Researchers, Students and Spiritual seekers to master the traditional art of debate.
