Sambodh Centre for Living Values is a project of Sambodh Foundation. The Centre is dedicated to foster charity and social service programs along with the study of Vedanta and meditation. The programs include annadana for destitute children, support for the education of talented poor students, tree plantation including herbal garden & sacred grove, goshala and so on.

Sambodh Centre for Living Values is housed in a green and quite space away from the hustle bustle of the city. Bodhivanam (abode of SCLV) is also a haven to many birds. A visit to the holy space itself could bestow mental and spiritual quietude.
